

A Revolutionary Formula & 100% Biodegradable

CITRUS CUTTER is a revolutionary all-purpose floor cleaner and degreaser that combines superior performance with a pleasant citrus odor.

Our powerful water based cleaner is derived from a synergistic blend of natural orange solvent and a unique surfactant system. The non-butyl formula provides a safe alternative to harsh caustic and toxic solvents. 100% biodegradable and non-flammable.

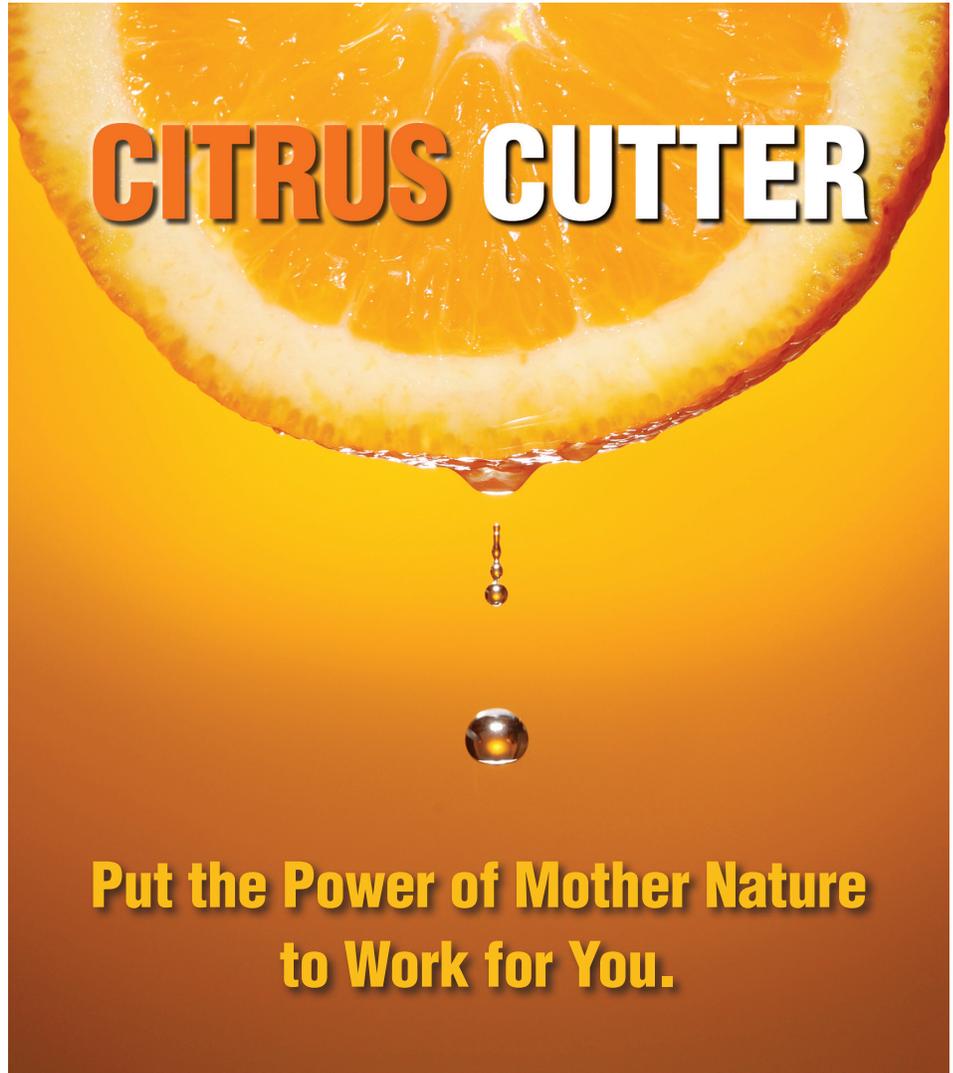

CITRUS CUTTER is formulated to remove heavy grease and oil deposits. It outperforms other citrus cleaners on the market and deodorizes as it cleans, leaving no residue – just a fresh clean smell.

Versatile & Extremely Cost Effective

CITRUS CUTTER can be used for most industrial and commercial cleaning jobs on a wide range of soils. It is designed for use in automatic floor scrubbers, mop buckets, spray bottles, and hand cleaning applications.

CITRUS CUTTER is highly concentrated and has exceptional cleaning properties at lower concentrations, allowing for economical dilutions. Therefore, you get more cleaner per container than products that are used straight.

CITRUS CUTTER is recommended for use in automatic floor scrubbers at concentrations between 1 – 5%, depending on soil load. It is also recommended for use in manual cleaning operations at concentrations between 5 – 10%, depending on soil load.

Put the Power of Mother Nature to Work for You.

Recommended Applications

Equipment	Factories	Floors
Garages	Kitchens	Machinery
Motors	Offices	Restaurants
Schools	Tools	Walls

Packaging

CITRUS CUTTER is packaged in 320-gallon one-way tote tanks and 55-gallon lined steel non-returnable drums. Bulk and 5-gallon pails are also available.

Typical Characteristics

Appearance of ConcentrateBright Orange
OdorCitrus
Flash PointNone
Specific Gravity1.017-1.037
pH of concentrate<12.5
Nitrites, PhosphatesNone
SilicatesYes
